Summary

Junior Front-End Developer with a focus on building high-performance, responsive web applications. I specialize in bridging the gap between design and implementation, utilizing **HTML5, CSS3, and React.js** to transform complex Figma designs into seamless user experiences. I am committed to writing clean, maintainable code.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Bootstrap

Tools: REST APIs, Git, GitHub

UI/UX & Collaboration: Figma, Responsive Web Design, Translating Designs into Code

PROJECTS

Interactive Web Apps – To-Do List & Bookmarker | Personal Project

Technologies: HTML5, CSS3, JavaScript, Local Storage

- Developed functional applications to strengthen core JavaScript concepts.
- Implemented DOM manipulation, event listeners, and Local Storage for persistent data.
- Designed responsive and user-friendly interfaces.

Personal Portfolio Website – Professional Showcase | Personal Project

Technologies: React.js, React Router, Bootstrap, CSS3.

- Developed a modern, responsive Single Page Application (SPA) to showcase a professional profile and a collection of web development projects.
 - Implemented seamless client-side navigation and routing using React Router for an enhanced user experience.
 - Designed a clean and interactive UI using Bootstrap, ensuring full responsiveness across various screen sizes and devices.
 - Optimized performance and deployed the application for public access, demonstrating proficiency in frontend architecture.
-
